Turkish - Native
English - Fluent
German - A1 level
Spanish - A1 level
Portuguese - A1 level

INTERESTS/HOBBIES

- Magic
- Piano&Drums
- Gastronomy&Cooking
- Watching Movie
- Tennis&Gym

WORK EXPERIENCE

WEB DEVELOPER

TEKPAN Electric A.S. | Mar 2021 - Sep 2021

- Utilized **Chrome DevTools** and wrote **custom CSS** to debug agency service and bring it up to company standards.
- Collaborated with marketing to improve **user experience**.

SALES & MARKETING İNTERN

LÖHER Elevators and Escalators | Aug 2018 - Sep 2018

- Researched potential customers and tailored customized offers to meet their needs.
- Prepared and reviewed sales agreements to ensure accuracy and legal compliance.
- Assisted with marketing activities, including social media campaigns, email marketing, and content creation.

EDUCATION

MASTER'S DEGREE - COMPUTER SOFTWARE ENGINEERING

Katip Celebi University | 2020 - 2022
GPA 3.85

LICENSE DEGREE - BUSINESS ADMINISTRATION

Ege University | 2014 - 2019
GPA 2.82

PERSONAL PROJECTS

MEAL APP

- I developed a meal application utilizing **Html, Sass, Javascript, NPM, and Parcel** bundler.
- The application allows users to search for recipes and makes **API** calls to retrieve relevant results.
- I ensured modularity and maintainability by implementing the **MVC pattern** to separate the application into Model, View, and Controller components, and using the **Publisher-Subscriber pattern** to improve performance and reduce coupling between different parts of the application.

BEATMAKER

- Introducing Beatmaker, a web application built using **JavaScript** and **GSAP** animation library.
- Create music using the drum, piano, and trombone instruments.
- Features include tempo control, sound muting, keyboard and mouse support, and audio recording and playback.
